

## **CASTLETON TENNIS CLUB**

### **CODE OF CONDUCT FOR SAFE PLAY**

While not a contact sport, relatively minor injuries, and occasionally more serious ones, can result from play. To minimise the risk, all players and the coach are requested to observe the following Code of Conduct for Safe Play to minimise the risk of accidents and injury.

- All players should ensure that they are wearing appropriate shoes.
- Do not play when the courts are slippery due to rain, frost, snow or ice.
- Before each point, players should ensure that loose balls are not within the area of play such that they could be trodden on causing a trip or fall. Note: This is particularly important during coaching when many more balls are often used.
- While the nature of the game can result in players occasionally being hit by tennis balls, players should take reasonable care that they do not hit an opponent when making a shot.
- Players are requested to report any injuries to the club committee via [castletontennisclub@gmail.com](mailto:castletontennisclub@gmail.com)

Do not access decking area of clubhouse when slippery due to rain, frost, snow or ice.
